

CITY OF NOME P.O. Box 281 Nome, Alaska 99762 907.443.6663 www.nomealaska.org

MOONLIGHT WELLS PERMIT

Date of Issuance:	April 24, 2021
	· · · · · · · · · · · · · · · · · · ·

Permittee: Shawn Pomrenke Northwest Gold Diggers, LLC P.O. Box 629 Nome, Alaska 99762

Authorizing Resolution: R-21-XX-XX

Authorized Activity: Placer Mining

This permit authorizes only the named permittee, Shawn Pomrenke, dba Northwest Gold Diggers, LLC, to operate a placer mine within the Moonlight Wells Protection Area on the following properties:

- MS 707 IXL Placer Claim
- MS 1212 Bench Claim No. 4 Placer

This permit is valid only for 2021.

The State of Alaska APMA # 2812 and associated permits issued by the State of Alaska for the APMA are adopted as part of this permit.

All placer mining and associated activities shall be in accordance with the terms and conditions set forth in this permit.

For the area proposed for placer mining, identified above, the following best management practices (BMPs) should be used:

1. <u>Fuel handling and storage</u>: (severe to high risk activity)

The owner has indicated that fuel for equipment will be hauled from outside the Moonlight Wells Protection Area (MWPA) in a 2,500-gallon fuel truck. A 500-gallon, double walled, fuel tank is proposed for on-site storage of fuels. Provide for a spill kit on the delivery truck for any spills during fuel transfers. All fueling performed from the 500-gallon tank to the excavator or wash plant will be continuously observed during the fueling operation, and the tank will be securely locked when not in use.

All equipment working within the permitted area shall have absorbent materials on it to be used in the event of a petroleum spill.

2. <u>Hazardous materials</u>: (severe to high risk activity)

Lubricants, solvents, and oils should be secured and properly stored at all times.

All waste oils and used filters should be carefully collected and disposed of at an approved waste oil receiving facility.

No hazardous, ignitable, corrosive, reactive or EP toxic materials shall be used or stored within the permitted properties.

A service truck will be used for daily servicing of equipment, but will be stored outside the MWPA when not in use.

3. <u>Trash handling on-site</u>: (high risk activity)

All trash generated at the mining site should be collected and disposed of at the municipal landfill. No trash or garbage shall be buried on site.

4. <u>Process water pumping and holding pond operations</u>: (medium risk activity)

An existing pond in M.S. 707 No. 3 Above Discovery on Little Creek Placer will be used for process water extraction. The pond is estimated to contain about 3 million-gallons and will be pumped 10 to 12 hours/day – estimated in the 30,000 to 40,000 gal./day range. The process water will flow through a settling pond on M.S. 1193 No. 5 Below on Cooper Gulch Placer and is intended to be returned to the extraction pond on M.S. 707.

Any increased withdrawal rates, resulting in a daily drawdown of the pond exceeding 12-inches, should be brought to the City's attention for review and additional monitoring of the static levels of the Moonlight Wells.

The holding pond, which is located just outside the Protected Area boundary, was created as a mining cut in 2018 and has no obvious signs of breakouts or breaching.

5. Depth of cuts for ore-bearing gravel extraction:

Excavation to depths of 35-45 feet are anticipated. If groundwater seeps or standing water is encountered, excavation will cease, and the area will be backfilled with a minimum of 2 feet of low permeability (high fines content) soils to cover the groundwater.

6. <u>Pit privies in the Protected Area</u>: (high risk activity)

There is no pit privy at the mining site. A "Porta Potty" may be used within the MWPA if needed.

7. <u>Restoration details</u>: (moderate risk activity)

The referenced DNR permitting process also covers restoration activities. The periodic inspections by the City Engineer or City representative should include a review of the restoration work and identification of any remedial work that is needed within the Protected Area. The BMP for this activity is compliance with DNR guidelines, and a rational approach to restoring lines and grades to disturbed lands; along with restoring natural drainage patterns to minimize erosion and down gradient silt transport.

Further conditions of the permit are:

- A. Any modifications to this permit must be submitted to the City Engineer for review and approval.
- B. The permittee shall allow the City Manager or his representative access to the permitted sites at reasonable times to conduct scheduled or unscheduled inspections or tests to determine compliance with the permit, City laws, and regulations.
- C. The permittee hereby agrees to hold the City of Nome harmless, and indemnify the City of Nome, from and against any and all loss damages to the Moonlight Wells municipal water supply caused by or resulting from the acts or omissions of the permittee, its agents, employees, subcontractors, suppliers or assigns.
- D. The permittee hereby agrees to provide proof of insurance in the form of an ACCORD certificate to the City of Nome, and, if requested by Nome, a copy of one or more policies referenced in the certificate.
- E. Failure to comply with conditions of the permit shall be grounds for immediate suspension of the permit by the City until corrective action has been taken and approved by the City. Non-compliance reports and a report of corrective action

shall be transmitted to the City Engineer for review. The City Engineer, upon notice from the City, shall review compliance reports and may recommend termination of the permit for repeated non-compliance with permit conditions.

F. The permit is effective upon approval of the Nome City Council, by Resolution and only when the City Engineer has issued a written notice to proceed.

The permittee, by signing the permit shall agree to the conditions contained therein.

Moonlight Wells Permit Application Pomrenke – Plan of Operations 2021-2022 Season dated April 22, 2021 State of Alaska APMA # 2812

Moonlight Wells Permit Application

Please answer all questions. The information provided on this application form will help determine whether your development activity poses a significant risk to the Moonlight Springs aquifer that is the City of Nome's public water system water source, and whether a development permit is required.

Development activity includes, but is not limited to excavation or alteration of terrain using mechanized equipment; building structures, storage or use of possible aquifer contaminants such as fuel or chemicals; well drilling; development of septic/wastewater systems; mining and other commercial or residential development activities within the Moonlight Wells Protection Area (see attached map).

Development does not include non-mechanized terrain disturbing activities, hiking, camping, berry picking; use of recreational off-road vehicles such as snow machines or 4-wheelers.

If the answer to any of the following questions is yes, your proposed activity is subject to the permitting requirements of the Nome Code of Ordinances Chapter 10.20 (O-06-10-02).

If you have questions regarding the information requested, or whether your activity is classified as a development activity, please contact City Hall at 907.443.6663.

DEVELOPMENT ACTIVITY INFORMATION

No □

Yes

1. Do you currently have any State, federal or local approvals or permits for your development activity?...

Note: Approval means any form of authorization. If "yes," please list below:

AMP Multiyear	Approval # 	Issuance Date	Expiration Date
			-

DEVELOPMENT ACTIVITY INFORMATION, continued

2. Have you applied for any State, federal or local approvals or permits that have not yet been received?

Approval Type	Application Date

An additional page to list permits is found at the end of this application form

DEVELOPMENT ACTIVITY DESCRIPTION

1. Provide a brief description of your proposed activity below. Be sure to describe Best Management Practices to be included in your activity that will reduce risk of altering, contamination or diminishing the City of Nome's municipal water supply

See Attach	ed lette	Y
	End date discussed	with Shawn Pomrenke on 04/23/2021
	•	11-15-2021
Proposed activity starting date: <u>5-15-2021</u>	_ Proposed activity	ending date: <u>11-1.5-2022</u>

2. Attach the following: • a <u>detailed description</u> of the development activity, all associated facilities, and land use, etc. (Be specific, including access roads, waste disposal sites, etc.); • a development activity <u>timeline</u> for completion of all major activities in the proposal; • a <u>site plan</u> depicting the location of the development within the Moonlight Wells Protection Area Boundary. Note: If the development is outside the protection area boundary, a permit from the City of Nome is not required, however your project may be subject to other regulatory requirements; • other <u>supporting documentation</u> that would facilitate review of the development activity. Note: If the development activity is a modification, identify existing facilities as well as proposed changes on the site plan.

Yes No

Wastewater

1.	Will a discharge of wastewater from industrial or commercial operations occur?	Yes □	No 🖾
2.	Will the discharge be connected to an already approved sewer system?	🗆	
3.	Do you intend to construct, install, modify, or use any part of a wastewater (sewage	🗆	
	 If you answered yes to 1-3, answer the following: 1) What is the distance from the bottom of the system to the top of the subsurface water table? 2) How far is any part of the wastewater disposal system from the nearest surface water? 3) Is there a water well or exploratory boreholes within 100 feet of the disposal system? 3) Is the surrounding area inundated with water at any time of the year? 		
4.	Do you intend to dewater an excavation?	🗆	X
5.	Do you intend to dispose of water from piping, containers, tanks, or hydrostatic testing?	🗖	۲X
6.	Has the wastewater disposal been reviewed and approved by ADEC?	ロ	Ø
7.	Does your development activity qualify for an ADEC general permit for wastewater?	🗆	図
8.	Do you intend to engage in an activity that will disturb one acre or more of land?	🖾	
9.	If you answered yes to 8, have you complied with stormwater pollution prevention requirements?	🗖	Ø
Solid V	Waste Disposal		
1.	a) Will your development activity result in the construction, operation of a facility for the	Yes	No
	disposal of solid waste? (Note: Solid waste means drilling wastes, household garbage, refuse, sludge, construction or demolition wastes, industrial solid waste, asbestos, and other discarded, abandoned, or unwanted solid or semi-solid material, whether or not subject to decomposition, originating from any source. Disposal means placement of solid waste on land)	🗆	凶
	b) Will your development activity result in the treatment of solid waste at the site?	🗆	R
	c) Will your development activity result in the storage or transfer of solid waste at the site?	🗆	应
	d) Will the development activity result in the storage of materials for reuse, recycling, or resource recovery?	🗖	Ø
	e) Will any sewage solids or biosolids be disposed of or land-applied to the site?		R
	f) Are your solid wastes tailings or waste rock from a mining operation?	🖾	
	g) Will you be disposing of, or stockpiling contaminated soil?	🗖	A

Land Application of Chemicals	Yes	1

City of Nome Moonlight springs Wells permit

April 22, 2021

NORTHWEST GOLD DIGGERS LLC P.O. BOX 2005 Nome,AK 99762 Plan of operations 2021 2022 season

development and activity description

Activity includes stripping overburden off of designated pits and removal of pay gravels to a approximate depth of 35 to 45 feet. The pay gravels lie on top of a ancient beach consisting of fine gravel and sand. There is no need to disturb the bottom beach material as there is no gold values in it. After observing last years pit witch is below this years pit the water table is well below the new cuts. We will not be filling in the cuts from previous years and will be sloping the edges and conturing for erosion and seeding. Mining activity will not exceed past M.S. 707 or M.S. 1212.

Wash plant is still in its original location on MS707 ok claim. The wash plant will be moved to south end of MS1193 No 4 Below Cooper claim around July 1st 2021 if there is sufficient amounts of pay dirt found in new cuts. Mining commences at or around May 15th and ends around November 1st of every year. All make up water will come from outside the Moonlight springs protected area if the wash plant is moved. If the wash plant is moved fuel will be stored in a double walled 500gal tank with a 120volt electric pump when refueling is done it will be maned at all times. This tank will be refueled with a 2500gal fuel truck that will not be stored inside the moonlight springs protected area. There will be spill response equipment on site including absorbent pads, oil boom, Particulate oil absorbent (floor dry). The equipment that will be serviced inside the protected area will be refueled and serviced with a service truck equipped with a 700gal fuel tank and oil and grease and will be maned at all times. When servicing is finished the service truck will be stored outside the protected area. Any major repairs to equipment when possible will be done outside the protected area. Any spills or leaks in excess quantities that are reportable under CWA section 311 would immediately be reported tp the city and state of Alaska DEC. IF in the event of a spill or leak we would take immediate action to eliminate and contain. Second we would contact City of Nome and DEC. Third we would collect and remove all contaminated soils and debris from protection area to a designated remediation site outside the protected area.

Preventative maintenance and spill response equipment

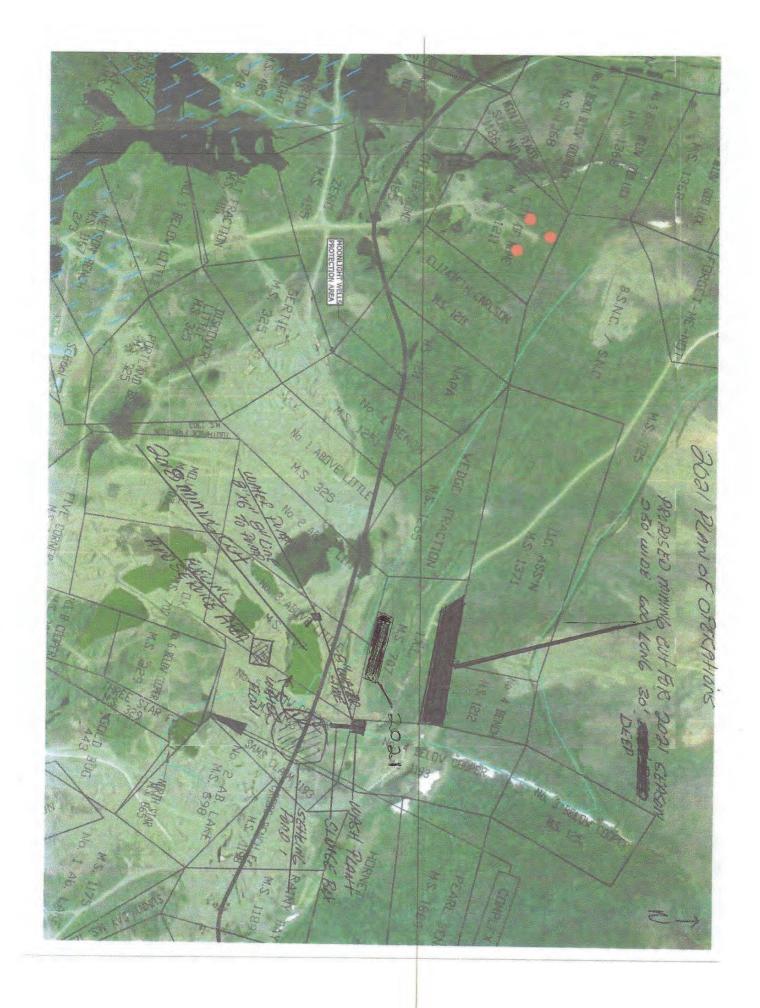

1. If ground water is encountered excavation will stop and area will be back filled with a minimum of 2feet of low permeability (high fines content) soils to cover ground water

- 2. We have a spill response van and adequate equipment to respond to a spill in the event of one
- 3. Any oil leaks or seepage on all equipment would be repaired immediately
- 4. The most likely spill would be from a ruptured hose on equipment in the protected area and it is mandatory for all personal to do a daily inspection of equipment and equipment hoses. Any and all hoses that rare found to be damaged or worn will be replaced immediately.
- 5. The only fuel that will be stored inside the protective area will be stored in a 500gal double walled tank that would be used to fuel wash plant and excavator when fueling is being done it will be maned at all times. If the wash plant is relocated.
- 6. All equipment will be removed from the protected area at the end of the season except for the wash plant witch will be drained of all fuel and oil.
- 7. Wastewater, Questions 7 8and 9 relate to state of Alaska stormwater pollution prevention plan. (SWPPP). After contacting DEC Nicholes Dallman this is not required from the state for this project.
- 8. We will keep equipment in the protection area to a minimum for the operation.
- 9. Oil and fuel containment has always been a top priority to us and does not mix with gold mining and gold recovery.
- 10. I am a long time resident of Nome with a home that uses the city water source and take the protection of it very seriously. Its my belief that this mining project will not adversely affect the moonlight springs water shed and look forward to working with the city on this operation.

Sincerely yours,

Shawn and Steve Pomrenke

AMMENDED - ADDING 2 MORE SETTLING 200 PON
WATER USE AUTHORIZATIONS (23)
Water usage (including 100% recycle systems) may require authorization by either Temporary Water Use Authorization or a Water Right Permit or Certificate. Information provided below will be used to determine the quantity of water that you may be authorized to use for your mining operation. When estimating water quantities, please estimate withdrawal amounts typical of a dry summer and provide the maximum quantity that you may withdraw from a particular source (e.g. stream, pond, groundwater, etc.) in a season.
A Temporary Water Use Authorization application may be initiated from this APMA application unless a Water Right is requested. Please contact the ADNR, Water Resources Section at telephone number (907) 451-2790 if interested in a Water Right or for more information.
A. START-UP WATER AND MAKE-UP WATER:
Is water withdrawn from any lake, stream, creek, river, etc. (does not include recycling/settling ponds)? Yes No
What is the name(s) of the lake, stream, creek, river, etc.? EXISTING YOND NO NAME
What are the months of water use needed (for example May 1 st through October 31 st)? <u>6-1-+6 10+5</u>
Start-up water: Is water required at the start of the season to fill your recycle/settling pond system?
Yes (if <u>YES</u> , complete information below).
Source: Groundwater gain from cut / Seepage infiltration from stream
Diversion ditch from stream. Number of days diverting from stream for start-up water:
Water intake rate: gpm hrs/day
Pump from stream. Number of days pumping from stream for start-up water:
Number of water pumps for start-up water: Water intake rate (list for each pump): gpm
hrs/day
Make-up water: Is water required to maintain water level in your recycle/settling pond system?
Yes (if <u>YES</u> , complete information below).
Source: X Groundwater gain from cut / Seepage infiltration from stream Ditch from stream. Number of days diverting from stream for make-up water:
Water intake rate: gpm hrs/day
Pump from stream. Number of days pumping from stream for make-up water:
Number of water pumps for make-up: Water intake rate (list for each pump): gpm
hrs/day Pump intake size:inches
B. RECYCLE/SETTLING POND SYSTEM.
Beaver ponds or other natural water features will not be permitted for use as settling ponds.
Is a pre-settling pond used? I Vas I No Is recycle used? I Vas I No
Is a pre-settling pond used?: X Yes No Is recycle used?: Yes No How many ponds are used in the recycle system?
Recycle pond is pond # Settling pond is pond #B
detting point is point # detting point is point #

ALASKA

DIVISION of MINING, LAND and WATER

MULTI-YEAR 2018-2022

APPROVED RECLAMATION PLAN

APPROVAL # 2812

The Alaska Department of Natural Resources, Division of Mining, Land, & Water, in accordance with Alaska Statute 27.19 (Reclamation Act), does hereby grant an Approved Reclamation Plan to:

ALASKA GOLD COMPANY 4600 DEBARR RD SUITE 200 ANCHORAGE AK 99508

NORTHWEST GOLD DIGGER LLC P.O. BOX 629 NOME AK 99762

This approval is for reclamation activity described in Application for Permits to Mine in Alaska # 2812.

This operation has been bonded through the State Reclamation Bond Pool, under bond APMA #2812, for a proposed disturbance of 14 Acres, for the 2018 mining season. The refundable portion of the bond pool deposit may be returned after reclamation is completed and approved by the Division of Mining, Land & Water.

In accordance with AS 27.19.050(c), you are required to file an Annual Reclamation Statement to serve as an annual report by December 31st each year this permit application is in effect, including photographs or video tape of the completed reclamation work. When submitting photography for approval, please photograph reclamation work prior to snowfall. Failure to submit this is a violation.

Effective dates of this approval shall be 1/17/2018 through 12/31/2022.

Changes to the intended Reclamation Plan described in Application for Permits to Mine in Alaska #2812 shall be submitted to this office in writing and approved in advance before such work can begin.

Approved: Jack Kerin

Permitting/Field Operations

Date: 1/17/18

NOTICE OF OPERATOR AUTHORIZATION -- STATE MINERAL LOCATIONS

All operators or lease holders submitting APMAs for operations on State mineral locations must submit a "Notice of Authorization" from the owner of record. This notice of authorization must name the operator and leaseholder (if different), the claims(s) by Name and ADL number(s), and the time frame (beginning and ending dates) for which the authorization remains in force. The Division of Mining, Land & Water will not issue any mining permits until we receive this Notice of Authorization. **Please include it with your APMA**.

MINE PLAN NARGATIVE FOR CONTINUMTION OI WULTHWEST GOUP DIGGERS COOPER GULCH MINING PROJECT. NIST ADDING CLAIMS FOR CONTINATION OF PROSECT SAID CLAIMS LOCATED IN SECTIONS 11, 12 T. 115 WOJ ABOUE 707 1193 R34W, KRM I.XL PLACE 707 1193

NOY BELOW BENCH NOY

1212

(2017-2018)

OCASSOCIATION 1371 Continuation of PROJECT would commence with RELOCATION OF THE WASH PLANT TO THE SOUTHEAST CORNER OF NO3 ABOUE FROM ITS CURRENT LOCATION ON OK. 707. THERE IS A EXISTING SETTLING POND FROM WHOMEVER MINED THERE BEFORE SIMATED DIRECTLY NORTH AND ADJACENT TO THE WORTHERN BOUNDY OF MS 707 OK CLAIM, I HAB BUILT A BYPASS ROAD IN 2015-2016 ON THAT LINE, THAT BYPASS ROAD WILL ACT AS A DAM-DIKE TO HOLP BACK SETTINGS FROM NEW PLANT SITE. THE SPREWOUSLY MINES PH FROM 2016 DIRECTLY South AND ADJACENT TOO THE NURTH BOUNDARY OF MSTOT OF WILL RE USED AS SETTING POND NO 2 FOR PROPOSED PROJECT. I WILL O A DOZER CUT THROUGH THAT ROAD TO MOVE THE FIRST SECTION OF OVERBURDEN SOUTH INTO THE 2015 PH TO SEAL THE PH SO THAT IT HOUDS WATER AND TO FILL THE HOLE. THE PLAN IS TO NOUE THE FIRST SECTION OF OVERBURGEN 100'W X 150'L INTO THE 2016 HOLE, THEN REMOVE THE PAY DURT, THEN MOVE THE NEXT SECHON OF OVERBURDENEE INTO THAT HOLE THEN PROLEED UP THE INCL IN THAT. MANNER. MOST ALL OF PAYDIRT IS UNDERNEATH OF HE EXISTING GLACIER CREEK ROAD. AS THIS WORK IS COMMENCING WILL BUILD A BYPASS ROAD ALONGSIDE OF THE EAST BOUNDARY INE OF NO3 ABOVE CLAIM WHILE REMOVING PAY FROM UNDER HE CURRENT ROAD. WHEN THAT IS COMPLETED WE WILL REDUID URRENT ROAD, THEN REMOVE TEMPORARY BY PASS FROM THE

PLEPT Service Ford F THIS CONTINUING PROJECT.

RESPECTAVELY,

MINE PLAN NARRAHVE PAGE TWO (2017-2015)

AFFER PLANT IS RELOCATED WE WILL SMOOTH AND LEVEL THE SOUTH TWO THIRDS OF CLAIM WOS BELOW ON COOPER GUICH. THIS AREA OF NOS BELOW, AS VOU CAN SEE FROM THE GOOGLE THIS AREA OF NOS BELOW, AS VOU CAN SEE FROM THE GOOGLE FARTH PICTURE IS A OLD CRUSHER SHE 100% DISTURBED FARTH PICTURE IS A OLD CRUSHER SHE 100% DISTURBED FOUND. THE REASON FOR LEVELING IS TO CREATE A FLAT ROUD. THE REASON FOR LEVELING IS TO CREATE A FLAT ROUD. THE REASON FOR LEVELING IS TO CREATE A FLAT FOUND, ROCK, SPECIAL SIZED ROCK, AS HART IS WHAT THE OWNERS AND, ROCK, SPECIAL SIZED ROCK, AS HART IS WAAT THE OWNERS FAND, ROCK, SPECIAL SIZED ROCK, AS HARTS NUMBER CORPORTION, F HE GROND, BEARING STRAITS NUMBER TO BOND THE CURRENT VINCE ACRES FOR THE REMANDER OF THIS YEAR AND ADD S VINCE ACRES FOR THE REMANDER OF THIS YEAR AND ADD S VINCE ACRES FOR THE REMANDER OF THIS YEAR AND ADD S WINCE ACRES FOR THE REMANDER OF THIS YEAR AND ADD S WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE ARTER THE CREES FOR THE 2017 DOID MINING YEARS. THE ARTER THE WINCE HEART IS RELOCATED WE WILL HAVE ALL GROUND RECAMMED WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE AND FOR CONSIDERATION WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE ARD ADD S WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE ARD ADD S WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE AND RECAMMED WINCE ACRES FOR THE 2017 DOID MINING YEARS. THE AND RECAMMED WINCE HEART IS RELOCATED WE WILL HAVE ALL GROUND RECAMMED WINCE ALL STREWS FOR DATE 2 AND #3. THANK YOU FOR CONSIDERATION WE CEPT SETTING FORD # 2 AND #3. THANK YOU FOR CONSIDERATION F THIS CONTINUES CONTINUING PROJECT.
