

## **PUBLIC SAFETY ANNOUNCEMENT FROM THE PORT OF NOME**

---

Demolition and Reconstruction of the Inner Harbor Launch Ramp has begun, and will continue through at least mid-September 2021. Please observe all signage in place at the construction site and maintain a safe distance from the project perimeter.

At times, the project uplands will be a high traffic area with the shipping companies loading cargo onto vessels at the High Ramp for delivery across the region. Please comply with instructions given by port staff, contractor personnel and vessel crews to minimize safety risks in this area during construction.

If questions, call the Harbormaster at 907-304-1906 or 907-304-1015. Anyone refusing to leave the area when instructed will be contacted by the Nome Police Department.

Thank you for your cooperation.
